

McGinnes RG-4 Really Grips the Load!

We quote a satisfied customer

"We feel this four-prong grapple does a much better job than the two or three-prong grapple and does it in a safer manner."

"The Corps of Engineers are very happy with our placement of derrick stone by using this rock grapple. We are able without much effort, to give them a finished slope that looks almost hand laid."

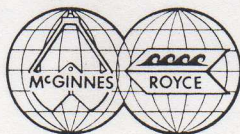

Guaranteed for six months against faulty workmanship or material.
